BUSINESS DIRECTORY OF TOWNS, Alphabetically Arranged.

PRELIMINARY INFORMATION.

1. The names of all the Towns and all the Post Offices in the State, except those which have North, East, South, West or Center prefixed to the names of the towns of which they are a part, are here alphabetically arranged.

2. For villages above excepted, look under the name of the town. But East Kingston, North Hampton, South Hampton, South Newmarket, and Westmoreland are *towns*.

3. After the name of each town, you find the name of the *county* in which it is located, the population in 1890, the direction and approximate distance from Concord and from the Shire town of the county, the way of reaching it by rail, the town officers and the professional and business men, arranged under different heads, as nearly alphabetically as is convenient, some regard being had to economy of space.

4. Merchants are supposed to keep a general assortment, and physicians to be "old school" unless otherwise specified.

5. All these items are referred every year, usually between Aug. 1 and Dec. 1, to the Town Clerks, Postmasters or other prominent men of the several towns and villages for correction.

6. We earnestly solicit corrections from all other persons who may notice things which they *know* to be errors.

7. Of course changes are made, in March, of Town Officers, and other changes are constantly occurring, so that one need not expect to find this Directory absolutely correct all the year round, but *use* it with this understanding and you will find it very valuable.

THE GOVERNOR

of New Hampshire is chosen biennially according to Statute of June 1877, on the Tuesday next after the first Monday in November, by a majority vote. SAMSON'S

PATENT

RAILWAY HORSE POWER.

**WITH SPEED GOVERNOR FOR ONE
OR TWO HORSES.**

Drive wheel can be placed on either side ; constructed so as to run machinery in small shops ; also, for threshing, sawing wood, grinding feed, elevating grain, pressing hay, pumping, churning, shelling corn, cutting ensilage, ginning cotton, and all other machinery that admits of being driven by horse power.

THE BEST FARM POWER MADE.

Very still running and perfectly safe for a horse, nicely finished and an ornament to any place in which they may be located. In saying that this is the best Railway Horse Power ever made, is not overestimating this or underrating others, and we shall hold ourselves in readiness to prove, by the machines and their operation, that such is the fact.

Our price is low for cash, and anyone in want of a horse power, drag saw machine, circular saw machine, or a thresher and separator for cleaning grain, will do well to send to us for a catalogue giving description and price of our machines.

A TRUE NERVE TONIC.

BOSTON GLOBE, Sept. 27, 1891.

There is one true specific for diseases arising from a debilitated nervous system, and that is the celery compound so generally prescribed by physicians. It is probably the most remarkable remedy that the scientific research of this country has produced. Prof. Edward E. Phelps, M. D., LL. D., of Dartmouth College, first prescribed what is now known the world over as Paine's celery compound, a positive cure for dyspepsia, biliousness, liver complaint, neuralgia, rheumatism, and kidney troubles. For the latter, Paine's celery compound has succeeded again and again where everything else has failed.

Washington correspondents have recently given it a great deal of attention since the most wonderful cure effected in the case of Commodore Howell.

LOOMIS J. SMITH, TO PROPERTY OWNERS !

THE P. & B. PATENT IDEAL ROOFING.

No Coal Tar! No Asphalt! No Odor! No Taste!

A Durable Roofing, one that will not run when the Sun shines on it, and will stand all atmospheric changes. Is better than tin or corrugated iron, and needs no painting.

Fire resisting, water proof, acid and alkali proof.

This Roofing is adapted for STEEP or FLAT roofs, Factories, Foundries, Fire Rooms, Boiler Houses, Farm Houses, Barns, Piazzas, etc. It is suitable for ALL CLIMATES, and has been used a sufficient length of time to warrant us in claiming it to be THE BEST and MOST ECONOMICAL ROOFING NOW IN USE.

The P. & B. Roofing has no odor. There is nothing of the prepared tar, asphalt or felt roofing about it, and should not be compared with those so-called protections to roofs. It is a well known fact that these latter are largely composed of insoluble dirt and refuse.

Where particularly the rain in cisterns, our Roofing is unequalled, as **WATER WILL NOT TASTE**. There is no ODOR OR TASTE in water used, which guarantees pure, healthy water. No OTHER prepared roofing is like it in this respect.

Fire will not run on this Roofing; it is fire resisting, and the INSURANCE COMPANIES ASSUME THE SAME RISK ON BUILDINGS COVERED WITH THIS MATERIAL AS TIN AND SLATE ROOFS. IT IS A PROTECTION against fire from (adjoining burning buildings) sparks, cinders and flying firebrands.

We are often asked what we can do with old tin, coal tar, felt or gravel roofs that are WORN AND ROTTEN. We advise not to go to the expense of repairing them. It is throwing good money after bad. A new roof of the P. & B. IDEAL ROOFING is cheaper in the end. For roofs in fair condition, our P. & B. Paint, or patches of the Ideal Roofing, will serve to stop leaks. "Remember it needs no Painting."

THE "P. & B. ROOF PAINT" HAS NOW BEEN in use about 9 years and has been demonstrated to be the BEST article manufactured for a variety of uses.

It will not peel or crack nor be injured by any degree of temperature; COLD HAS NO EFFECT UPON IT; cannot rot; is impervious to wind and rain.

WHY USE so-called cheap roof paint that will wash off in a few months, when by the use of P. & B. you will be secured by the written guarantee of a responsible company that the paint will last for years?

Samples and prices, and any further desired information will be promptly supplied by
